

M. D. Wainwright Council Minutes

The first meeting of the council of the municipal district of Wainwright, No. 61, met in the council chamber at Wainwright, Alta., on Tuesday, April 3, 1945.

The returning officer called the meeting to order and declared the following: V. Dallyn elected councillor for division 1; D. Sutherland for division 3; E. W. Taylor for division 4, and A. R. Golding for division 6. These persons being present, the official oath, being Form B Oaths of Office Act was administered, and they were duly installed into office.

The returning officer called for nominations for the office of reeve of the municipal district for the ensuing year. Mr. Spencer nominated Mr. Dave Sutherland and Mr. Archibald moved that nominations close and Mr. Sutherland was declared reeve of the municipal district.

Councillors present: Dallyn, Sutherland, Spencer, Taylor, Smale, Golding and Archibald. Reeve Sutherland in the chair.

Moved by Cr. Smale that Cr. Spencer be the deputy reeve for the first six months. Cd.

Moved by Cr. Archibald that this council meet on the second Thursday of each month at 10 a.m. at the municipal office at Wainwright. Cd.

Moved by Cr. Spencer that the minutes of March 8, 1945, be adopted as written. Cd.

Moved by Cr. Archibald that Mr. F. E. Dixon be appointed assessor under the Municipal Districts Act for 1945. Cd.

Moved by Cr. Spencer that Wainwright, Hamilton, Anderson and Co. be auditors for the year 1945. Cd.

Moved by Cr. Taylor that Doctors Wallace, Middlemass and Polkins be appointed medical health officers for 1945 at a retaining fee of \$25.00 each per annum. Cd.

Moved by Cr. Archibald that Mr. J. A. MacKenzie, K.C., be retained as the District's legal adviser at a fee of \$250.00 per annum. Cd.

Moved by Cr. Sutherland that Cr. Spencer be chairman of the finance committee. Cd.

Moved by Cr. Archibald that Cr. Smale be a member of the finance committee. Cd.

Moved by Cr. Smale that Cr. Archibald be chairman of the public works committee. Cd.

Moved by Cr. Archibald that Cr. Taylor be a member of the public works committee. Cd.

Moved by Cr. Spencer that Cr. Dallyn be chairman of the public welfare and health committee. Cd.

Moved by Cr. Archibald that Cr. Golding be a member of the public welfare and health committee. Cd.

Moved by Cr. Dallyn that the council as a whole be a committee of pound damage and that each councillor investigate local pound damage. Cd.

Moved by Cr. Archibald that the council as a whole be the agricultural committee. Cd.

Moved by Cr. Sutherland that each councillor be a fire guardian in his own division. Cd.

Moved by Cr. Smale that each councillor with the office staff be the municipal property committee. Cd.

Moved by Cr. Sutherland that the signing officers for the ensuing year shall be the reeve and secretary-treasurer, in the absence of the reeve the deputy reeve and in the absence of the secretary-treasurer the accountant. Cd.

Moved by Cr. Taylor that all banking business of the municipal district be done with the Provincial treasury branch. Cd.

Moved by Cr. Spencer an amendment to motion No. 127 that the municipal banking facilities be continued as in the past three years. Amendment carried.

For the amendment, Crs. Spencer, Sutherland, Golding and Dallyn.

Against the amendment, Crs. Taylor, Archibald and Smale.

Moved by Cr. Smale that the accounts as approved by the finance committee and those subsequently approved by the council, amounting to \$1525.67, be passed and paid. Cd.

Moved by Cr. Sutherland that the pay sheets as approved by the councillors of their divisions amounting to \$543.37, be passed and paid. Cd.

The Fidelity Bond for Miss H.

Klassen No. 31412 with the Canadian Indemnity Co. for \$10,000 was brought to the attention of the council.

The secretary reported on the 1944 collections of doctor agreement tax, same being accepted.

Moved by Cr. Sutherland that the letter from the department of municipal affairs dated March 10, advising change in number of municipal district and that No. 61 had been allocated to the M.D. of Wainwright be received and filed. Cd.

Moved by Cr. Archibald that the Golka Gravel Co. of Viking be given a gravel contract for the municipal district 1945 season. Cd.

Moved by Cr. Taylor that the secretary write R. A. Kenny and A. A. Voice, road contractors, asking if they will meet the council at a meeting on April 16 to discuss road building program or if unable to attend that they send the council quotations for their consideration. Cd.

Moved by Cr. Spencer that the secretary write the Board of Transport Commissioners, Ottawa, in the matter of railway crossing at Greenshields, Alta. Cd.

Moved by Cr. Spencer that the secretary write the minister of public works to continue the highway from Vermilion south from Wainwright to highway No. 13, also secretary request the municipal districts and villages to the south that they give their support to this project. Cd.

Moved by Cr. Taylor that the

secretary communicate with the minister of public works requesting the continuation of highway No. 14 east to the meridian road during the 1945 public work season. Cd.

Moved by Cr. Dallyn that this council lease to E. R. Hooper the livery barn at Ribstone for one year as from April 1, 1945, for the sum of \$25.00, payable in advance. Cd.

Moved by Cr. Dallyn that the secretary write Mr. C. D. Cargill that the valuation for sale purposes as to the NE 22-43-1-4 is \$390. Cd.

By-law No. 103 concerning the sale of the SE 27-45-5-4 to J. E. Denoncourt for \$1400, \$600 cash, balance in two equal payments November 1, 1945 and 1946, at 5 per cent interest, presented.

Moved by Cr. Spencer that by-law No. 103 pass its first reading. Cd.

Moved by Cr. Taylor that by-law No. 103 pass its second reading. Cd.

Moved by Cr. Dallyn that by-law No. 103 pass its third and final reading. Cd.

By-law No. 104 concerning the sale of the NE 4-44-4-4 to A. H. Bowly for \$400, \$80 cash, balance in two equal payments, November 1, 1945 and 1946, at 5 per cent interest, presented.

Moved by Cr. Sutherland that by-law No. 104 pass its first reading. Cd.

Moved by Cr. Archibald that by-law No. 104 pass its second reading. Cd.

Moved by Cr. Smale that by-law No. 104 pass its third and final reading. Cd.

Moved by Cr. Taylor that the secretary advise Mr. H. Hassall of Chauvin that his offer to purchase the SW 9-43-3-4 has been rejected on account of this land being in a watering centre of a community pasture block. Cd.

Moved by Cr. Taylor that the secretary advise the Cresthill Farmers Community Cattle Grazing Lease that their offer to lease the SW 9-43-3-4 has been rejected on account of this land being in a watering centre of a community pasture block. Cd.

Moved by Cr. Smale that the report of the secretary re the SE 9-43-3-4 be accepted and that the sum of \$542.49 being the total amount due on taxes and agreement of sale to Pete LaRiviere, by the former municipal district of Ribstone, be accepted, and the secretary forward D.C.T. to the said Pete LaRiviere. Cd.

Moved by Cr. Smale that the secretary advise the C.F.C.C.G.L. that the SE 9-43-3-4 was sold to Pete LaRiviere by the former municipal district of Ribstone and that the agreement has been paid in full and that their cheque for offer to purchase be returned. Cd.

Moved by Cr. Archibald that the following leases be granted: C.F.C.C.G.L. NW 2-43-3-4, N1/2 33-43-3-4, 1 year pasture;

R. Harding, NW 6-44-9-4, 1 year pasture;

H. Sorenson, SE 12-45-6-4, 1 year pasture;

R. C. Hissett, SW 20-43-6-4, 1 year pasture;

J. Rajotte, SE 16-44-5-4 (N. of R.Y.) 1 year pasture;

S. C. McLean, SW 24-47-5-4, 3 year share crop;

O. Macklin, SW 3-46-6-4, 3 year share crop. Cd.

Moved by Cr. Smale that the report of the secretary re the SE 24-46-5-4 be accepted and that this council lease the SE 24-46-5-4 to Mr. A. M. Dickhout for quarter share crop for a term of three years as from April 1, 1945, all arable land to be summerfallowed in 1945. Cd.

Moved by Cr. Spencer that the offer to purchase the municipal office and lot at Irma by J. E. Peterson for \$450 cash be accepted, subject to the W.P.T.B. rental control officer. Cd.

Moved by Cr. Smale that this council accept the offer of W. Adams for \$400 cash to clean up the agreement of sale Pt. N1/4 4-45-7-4 contracted with the former municipal district of Battle River. Cd.

Moved by Cr. Spencer that all land holding a 1944 or previous tax notification and not redeemed be offered for sale by public auction on Thursday, June 14 1945.

At the Churches

UNITED CHURCH

Sunday, April 15
Albert—public worship 2 p.m.
Alma Mater—Public worship at 4:00 p.m.

Irma—Sunday school 11 a.m.
Public worship 7:30 p.m.
A hearty invitation to all.

SHARON LUTHERAN CHURCH
Divine service April 22 at 11:30.

ST. MARY'S CHURCH

Service will be held in St. Mary's church on Sunday, April 15, at 2:30 p.m.

The April meeting of the W.A. of St. Mary's will be held at the home of Mrs. Darling on Friday, April 20, at 2:30 p.m.

NEWS OF OUR BOYS

Phil Charter, accompanied by his wife and baby daughter, is home on leave this week from Winnipeg.

Robert Smith was home on leave from Souris air station last week-end.

NOTICE

The Alberta Wheat Pool will sponsor a candidate to the Farm Youth Peoples week from June 7 to 14 at the university, Edmonton. All boys and girls interested between the ages of 16 and 27 years see A. C. Archibald or F. T. Thornton not later than May 2.

YOUTH ATTENDANCE

DECLINING STEADILY

Toronto, Apr. 9.—A poll of youth opinion made for the Canadian Youth Commission reveals that, apart from Quebec province, regular weekly attendance at church by young Canadians between 15 and 24 declines steadily from east to west—from 63 per cent in the Maritimes, 49 per cent in Ontario to 34 per cent in the prairie provinces and British Columbia. Eighty-eight per cent of young people in Quebec and 89 per cent of all young Roman Catholics in Canada say they go to church every Sunday. Only 38 per cent of young Protestants make this claim.

CANADIAN MUSIC TO BE HEARD SUNDAY

All Canada will have an opportunity next Sunday, April 14, at 11:30 a.m., to hear a serious musical composition which has won a national award for a westerner brought up in Saskatchewan.

The composition, entitled "Irish Rhapsody," by Maurice Lowe, of White Rock, B.C., took one of the five senior awards made by the Canadian Performing Right Society for the most promising new Canadian music of 1944. Sunday's performance on the CBC's trans-Canada network will be its first on the air.

Born in England, 43 years ago, Mr. Lowe has been in Canada since he was eight. Brought up in Saskatoon, and after briefly desisting music for electrical engineering, he moved to Winnipeg in 1918 and spent several years in intensive piano study.

at 2 o'clock in the afternoon. Cd.

Moved by Cr. Sutherland that the annual court of revision of the 1935 general assessment be held on Thursday, June 14, 1945, at 4 o'clock in the afternoon. Cd.

Moved by Cr. Sutherland that Cr. Dallyn be a committee with reference to Mrs. D. Croter's relief. Cd.

Moved by Cr. Smale that the secretary write the old pension department re Mrs. J. S. Varner outlining the matter of her crop returns, with a recommendation from the council that her pension be reinstated. Cd.

Moved by Cr. Spencer that in view of the importance of the care of the public health, and in view of the fact that the area administered by the council is largely similar to that of the Wainwright school division, we the council of the Wainwright municipal district endorse the action of the school division in engaging a nurse as the first of a staff towards a full time health unit. Cd.

Moved by Cr. Spencer that the meeting stand adjourned until Monday, April 16, at 10 o'clock a.m. Cd.

THIS STORY IS BASED
ON AN ACTUAL CASE

*"Tough
years those ...
but the BofM saw me through"*

JOHN HALEY, retired farmer, was talking to his son who was now running the farm.

"Yes, Ronnie, they were tough years—but that was before you were born. Your mother and I came here back in 1900 . . . all we had was this square mile of land—with a shack, a ramshackle barn and a bit of fence . . . oh yes, and a mortgage. And we had to haul water two miles and drive twenty to market."

"Gosh, Dad, it must have been mighty hard sledding . . . guess I have a cinch today."

"Well," said the old man, "it would have been a sight harder sledding if that young manager of the Bank of Montreal hadn't stuck by me. There were some years when I had had luck with my little herd and the crops were poor, when I'd have just gone under if he hadn't given me a hand."

"Funny, you know, he always used to say I was a good credit risk because I used to haggle with the people I bought cattle from and when I wanted a loan

to buy feed I almost always asked the Bank to advance money for just part of the cost.

"Anyway, good risk or not, the Bank stuck by me, and if it weren't for that you wouldn't be running this 640-acre farm today and getting first prize for your Ayreshires, and—what's more—doing a good war job."

THIS true experience is typical of thousands of customers' relations with the Bank of Montreal. The John Haleys get on in life because of their determination, enterprise and self-reliance. It is they who have made Canada what she is today . . . the third greatest trading nation of the world.

If you need a loan for the better operation of your farm, or for assistance in your personal affairs, we will be glad of the opportunity to discuss, in confidence, your plans and problems with you.

Progress In Medicine

IT IS EXPECTED THAT THERE will be many changes in our way of living when the war is finally ended. Some prophecy that these changes will be very sweeping in character, others feel that too much is anticipated from the secret scientific and mechanical discoveries made during the war and that we may not be entering upon quite the ultra-streamlined and mechanized world which is sometimes pictured for us. There is one field, however, in which we may hope for advances, which will be of great benefit to mankind, and that is in the field of medical science. Enough is now known of the progress which has been made in medicine during the war to make it apparent that when all this new knowledge can be used for the benefit of the population as a whole, it will help greatly to raise the standard of health throughout the country.

Many Found Not Physically Fit

All advances in medicine have not been related to improving the methods of treating disease. Increased emphasis is continually being placed on the value of what is known as preventive medicine, and much has been done in Canada in recent years to broaden the courses in health education given in the schools, and to educate the public generally in matters connected with health and nutrition. The need for action in this regard has been brought home to us by the startling facts concerning the standard of health here as revealed in the statistics made public regarding the number of men rejected by the army for physical reasons. These figures show that up to March, 1944, only 468,363 men out of 1,064,888 who were examined proved to be in "A" category. Out of the remaining 596,525 slightly over 500,000 were found to be unfit for military service of any kind.

Greater Sense Of Well-Being

When such a large percentage of young men of military age are found to be in poor physical condition, the question is raised as to the standard of health among the whole population, and it is concluded that among other age groups there would be found a similar, or perhaps more serious situation. Dr. Morris Fishbein, editor of the Journal of the American Medical Association, stated during a recent visit to Canada, that the concern of medical scientists today is "not only the doctrine of freedom from disease, not only the doctrine of barely living, but the doctrine of living with vim, vigor and vitality." This concept of a future in which people may enjoy at all times a greater sense of health and well-being is one to which we should aspire as individuals and as a nation.

Found Good Market What Radio Has Done

Disposed Of Tin Hats And Wooden Rifles

War Assets Corporation whose head office is usually called from efforts to dispose of surplus war materials, revealed that it had run into a shortage of First Great War steel helmets and dummy wooden rifles—and at the same time it paid tribute to an unknown Vancouver boy for solving a disposal problem.

The corporation announced that 19,000 of the old "tin" hats which had been declared surplus seemed destined to be sold at a fraction of a cent each as scrap, after suggestions for their use as flower pots, bird baths, feeding bowls for calves, hen's nests and a variety of other things had been found unfeasible.

Then in the window of a Vancouver store whose owner had offered to display some of the helmets, the juvenile genius saw the helmets and "the price fitted the purse." In two hours all the helmets in the store were gone and soon 18,996 tin hats had been disposed of to volunteer junior commandos across the country.

The corporation says it can fill orders for 50,000 more if it can find them.

Similarly, 47,000 dummy wooden rifles originally designed for the training of cadet corps became surplus and were grabbed off by the kids "for the price of a sundae."

Women In Jobs

May Take On Heavy Work In Machine Shops

A survey just completed shows a total of 654 women employed in Canadian National Shops, roundhouses, coach yards and car repair tracks throughout the system. Some of them are bolnmaker welders, car oilers, blacksmith helpers and electric crane operators.

Others are helpers to machinists, sheet metal workers, bolnmakers and carmen; and the remainder are classified as labourers, seamstresses, car porters and a turntable operator.

PRACTICALLY HARMLESS

In the matter of the common cold, a topic second only to that of the weather, one of the doctors is out with a comforting bit of news: Few of the remedies we take for it do us much harm.

The oldest lock in existence is an Egyptian lock found in the ruins of Nineveh.

Price Control And Rationing Information

Q.—My wife and I are planning on moving to the city of Victoria. We would prefer to live in a small apartment. Will we be allowed to take up residence there?

A.—Any householder planning on living at Victoria should write to the Emergency Shelter Administrator in that city for full particulars of the regulations which apply to Emergency Shelter Areas. Other cities controlled by the Emergency Shelter regulations are Vancouver, New Westminster, Hamilton, Toronto, Hull and Ottawa.

Q.—If we are to use the extra preserves coupons for canning sugar or for commercially canned fruits and jams during the preserving season does that cut off our regular amount of preserves coupons? I can only find 25 preserves coupons altogether in the book and I understand that 20 of these have been earmarked for canning sugar.

A.—When all 25 preserves coupons have been declared valid, the coupons in ration book five will be declared valid for preserves or canning sugar.

Q.—Are coupons deleted from ration books issued to discharged members of the armed forces, deleted from the date of discharge or the date of application?

A.—Coupons are deleted from ration books up to the time the ration book is applied for, as it is assumed that the applicant had no prior need of rationed commodities.

Q.—Are fur coats controlled by the Wartime Prices and Trade Board? The prices of furs vary so very much.

A.—The prices of fur coats are not controlled by the Board. Each coat displayed must have a price ticket attached stating the price of the coat and the correct fur name.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your selling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Definite Connection

Between Red Cross Drive For Funds And Butter Ration

There is a very definite connection between the butter ration now in effect in Canada and the drive for funds recently made by the Canadian Red Cross.

Every week the Red Cross sends from Canada 140,000 parcels to prisoners of war and liberated countries. In each box is a one pound tin of butter, a one pound tin of whole milk powder and a quarter pound package of cheese. That may not sound like a great deal but if the dairy products contained in a single package are multiplied by 140,000, and that amount is multiplied by the 52 weeks in the year, it represents a sizeable quantity of dairy products.

As a matter of fact, the milk, or butterfat required to supply Red Cross parcels alone is sufficient to make about 10,134,000 pounds of butter annually enough to supply the total yearly butter ration of any Canadian city of 400,000 persons, or about two weeks supply for the entire population of Canada.

An elephants heart has a circumference of five feet, and may weigh over 60 pounds.

SLOAN'S LINIMENT

FOR FASTER RELIEF

JACK MINER'S BIRD SANCTUARY—A winter scene on one of the ponds of the world famous Jack Miner Bird Sanctuary, Kingsville, Ont. Not only do the ducks and geese visit this bird haven in the spring and fall, but several thousand spend the winter and are fed by Jack Miner's three sons, namely, Jasper, Ted and Manly, who are carrying on the sanctuary activities with more enthusiasm than even did their late father, if that be possible. The Jack Miner Sanctuary, for over forty years, has been saving a nest egg supply of bird life for the continent and its example has been copied in not only U.S., but in many foreign countries. In Canada his bird sanctuary has proven to be one of the greatest attractions and before Jack Miner, O.B.E., died, he, for several years was rated "Canada's best known private citizen." As long as the Jack Miner Bird Sanctuary stands, boys and girls will be able to see bird life alive instead of having to go to a museum to see dead and extinct specimens.

Captains Promoted

J. D. Storie L. L. Dunsmore

In preparation for its 1945 growth, Trans-Canada Air Lines announces, through B. A. Rawson, superintendent of flight operations, the appointment of Captains J. D. Storie and L. L. Dunsmore, as check pilots. Captain Storie and Dunsmore will be based at Winnipeg headquarters and will assist in the intensive training program TCA is embarking upon, involving ex-service R.C.A.F. personnel.

The Port Of London

Played Very Important Part In Western Invasion Of Europe

A wide impression that since the bombing raids of 1940 the Port of London had been unable to take a major part in military service will be dispelled by the publication of details of what the port accomplished in preparation for the western invasion of Europe and in supplying the needs of the services for some time after D-Day.

Between the beginning of June and the end of August there were loaded and despatched from the Port of London over 311,000 personnel of the British Liberation Army, over 123,400 vehicles, and over 666,000 tons of general stores, including ammunition. Only a short time was allowed for preparation, and the working of commercial ships proceeded simultaneously. The loading of 2,000 ships was involved, and the tidal conditions of the Thames rendered necessary extremely fine calculation and organization for docking and undocking of the fleet of vessels in order to avoid delay and confusion.

The successful carrying out of this great task was a tribute to the Port of London and to London dockers, who during the worst period of the day-and-night flying bomb assault worked as enthusiastically, handling astonishing tonnages daily to keep pace with the finely cut time table.

Another contribution of the Port of London was the construction of five out of eight and a quarter miles of caissons for the artificial port of Arromanches. The caissons were built in dry docks, wet docks, and temporary riverbed basins—London Times.

Globe Trotter

Great Britain's Prime Minister Has Travelled Extensively During War

Prime Minister Churchill, most travelled statesman of the war, has travelled some 150,000 miles in his journeying to further United Nations planning efforts for war and peace.

He has met President Roosevelt nine times and Marshal Stalin four, conferred with Gen. de Gaulle in France and President Chiang Kai-shek at Cairo. He has conferred in London or overseas with the government heads of the British Commonwealth, all the European Allies, President Ismet Inonu of Turkey, Premier Naras Pasha of Egypt and Premier Ali Schell of Persia.

He has crossed the Atlantic 10 times, visited the United States five times, and stopped briefly in Canada, Russia, Persia, Egypt, Morocco, Turkey, Cyprus, Tripoli, Algiers, Malta, Italy, France, Greece and Gibraltar.

Campers cook their meals over a steaming crack in the ground, and sleep in steam-heated tents, in the Valley of Ten Thousand Smokes, southern Alaska.

Noted Type Designer

F. W. Goudy Honored In New York On Eightieth Birthday

Frederic W. Goudy, noted type designer, is 80 years old. To celebrate the occasion, the American Institute of Graphic Arts and two other societies, the Typophiles and the Distaff Side, gave a dinner in his honor at the Hotel Ambassador in New York. At his home in Marlboro, N.Y., Mr. Goudy said that he was working on the design of his 121st type face. He thinks that the number of type faces he has designed may be a record. At least, he knows of no other man who has designed as many as a hundred.

Recently, Mr. Goudy said, he had been compelled to refuse an invitation issued to him by Ethiopia to design a new Amharic type face for use in that country. Last summer he completed the designs for a new Hebrew type face for the University of Palestine.

Here a CWAC There a CWAC

PROMOTED—

Two Saskatchewan girls recently received promotions overseas. L. Cpl. Lena "Lynn" Goulet, Shaunavon, Sask., was promoted to the rank of corporal and Pte. Ruth Allen, Rutland, Sask., was appointed to the rank of lance corporal. Both girls, overseas for 18 months, have served with the No. 1 Static Base Laundry Unit. Cpl. Goulet has since been transferred for duty as corporal in charge of the C.W.A.C. barracks.

FROM BALLROOM TO BARRACKS

Diminutive Captain Marial Mosher, Officer Commanding No. 106 Depot Coy., C.W.A.C., has trod a variety of interesting paths in her size 3½ shoes. A former ballet dancer, Capt. Mosher was one of the first nine Nova Scotians to enlist in the C.W.A.C., as well as one of the first group of CWAC officers to go to England, Capt. Mosher was presented to Her Majesty, and travelled extensively in the British Isles. A sports enthusiast and an accomplished ballet dancer, Miss Mosher studied physical culture and Russian ballet in New York, while majoring in psychology at Columbia University there. Since her enlistment in the C.W.A.C., she has been stationed in both Victoria, B.C., and Halifax, N.S. Daughter of Mr. and Mrs. Malcolm Mosher, Halifax, Capt. Mosher is considering a post-war return to the ballet theatre in a choreography-production capacity. Intensely interested in the general development of a Canadian culture, Capt. Mosher looks forward to the day when Canada may boast her own School of Ballet.

ENLISTS—

Miss Helen Ruth Swift, Winnipeg, daughter of Mr. and Mrs. James Swift, Assiniboia, Sask., enlisted in the Canadian Women's Army Corps at Fort Osborne Barracks, Winnipeg, recently. Miss Swift, born at Swift Current, Sask., had been employed in Winnipeg as a children's nurse for 6½ years prior to her enlistment.

MEET A CWAC—

L. Cpl. Bernice Bergsteinson, Weyburn and Regina, doesn't have to "Watch the Birdie" job, but she does have a lot to do with the result pictures. The only dark room assistant in the Public Relations Office at Military District No. 12 Headquarters in Saskatchewan to do this type of work. In order to qualify for her job L. Cpl. Bergsteinson attended a course in photography last fall, sponsored by the Canadian Legion. Receiving added instruction from the photographic office, she learned to do developing, printing and other dark room work. L. Cpl. Bergsteinson enlisted in the C.W.A.C. in January, 1944, at Regina. Following her basic training at Vermilion, Alta., she was employed as a clerk in M.D. 12 Headquarters until April, 1944, when she was taken on the staff of the Public Relations Office. She has one sister in the C.W.A.C., Sgt. Margaret Bergsteinson, employed in Regina, and a brother overseas. One brother has returned from overseas, and is now discharged from the army. Prior to her enlistment, L. Cpl. Bergsteinson attended the Balfour Technical School in Regina.

GRADUATE—

A large number of Western girls were included in the latest class of graduates from No. 3 CWAC (B.T.C.) Kitcheners, Ont. Included among them were: Ptes. G. E. Brady, McCreary,

SMILE AWHILE

Wife—"Do you think the mountain air will disagree with me?"
Hubby—"I doubt if it would dare, my dear."

"There's no need for you to shout," said the dentist. "I haven't touched your teeth yet."
"No," said the patient, "but you're standing on my corn."

"I hope to get on, sir, I'm taking a correspondence course to learn how to make more money, sir."

"H'm! Well, it's just too bad for you, Jones. I'm also taking one to learn how to reduce expenses."

He (on the telephone)—"Hello, dear. How about us having dinner together this evening?"
She—"I would love it."

He—"Well, tell your mother I'll be over about seven o'clock."

"I despise a hypocrite."

"So do I."
"Now take Jackson, for example. He's the biggest hypocrite on earth."

"But you appear to be his best friend."

"Oh, yes, I try to appear friendly towards him. It pays better in the end."

"Jane, dear," said the fond mother earnestly. "I can't think why you don't get on with your young man. He's all right in his way."

"I know, mother," replied the daughter, "but he's always in mine."

Tourist: What a quaint little village! Truly one-half of the world is ignorant of how the other half lives.

Native: Not in this village mister; not in this village.

"What do you think of government ownership of defence industries?"

"I'm for it. When the government owns everything it will have to pay the taxes itself."

Doctor—How's the pain in the leg?

Patient—It's getting better.

Doctor—How's the pain in the arms?

Patient—It's better, too.

Doctor—How's the pain in the neck?

Patient—Oh, she's out playing bridge.

OUR COMPLETE SHORT STORY—

SMOKE SIGNAL

— By —
H. WILLIAM EGGER

McClure Newspaper Syndicate

Sonya Carlson ran the Last Chance Diner, where hungry and sleepy truckers who had split their gears for two weary miles up Lampshade Mountain stopped for needed reinforcement before grinding up the steep six miles that wound off above the Last Chance. It was not an uncommon thing, driving past, to see twenty-ton metal monsters lining the highway near the diner, for Sonya was a favorite of the truckmen.

She was a sturdy, blond girl whose father, old Sven Carlson, had been a publisher for the Trans-Rocky Transportation Company. Had been, until he'd gone down a two-hundred-foot embankment one foggy night. Sonya used the money the drivers contributed to buy the Last Chance. Her pies were famous, and two huge pots of coffee always stood on the gas plate. One, in which steel nails could have been floated, was for truckers. The other, less inky, was meant—as Sonya put it—"for civilized people". The Last Chance was in a lonely spot. Many people asked Sonya if she was not afraid of being held up. One tramp thought it was a good idea, and did get thirty dollars at the point of an uncertain revolver. But the "truckers' teletype" carried the story and the tramp was picked up 70 miles down the line. When he was delivered to the police for medical treatment he greeted the protection of the iron bars with thankfulness. No one ever held up the Last Chance again. Sonya had her health, her beauty, her friends, and a well-paying business. She should have been happy, but she wasn't. Sonya was in love.

No one would have believed it. Sonya treated all the drivers with the same easy friendliness. She helped them comfort their love letters, saw to it that they wrote to their mothers, and told them all they

were crazy to be truckers. But Sonya thought differently about Nels Borden, the six-foot viking who drove a roaring 22-ton Diesel. Nels was friendly but as shy as a schoolboy. Sonya had never said more than "Hello" and "What'll it be?" to Nels, and though she knew she would marry a trucker, she longed for Nels's company.

Sonya was scraping the hamburger grill when she heard the Diesel coming up the slope. She looked up as Nels entered.

"Hello." He ordered hot roast beef, apple pie and coffee, rolled a cigarette and then for a wonder, spoke: "I'd think you'd be afraid of fire here, with all that hot grease near those gas jets. Be an awful mess, Miss Carlson, if there wasn't anybody around."

"Yes, I guess it would. More coffee?"

Nels paid and left his huge headlight cutting a wide swath through the darkness. Sonya at the window, watched the red, green, and amber marker lights of the truck fading into the night. Suddenly she snapped her fingers, turned, and hurried to the rear of the diner.

Nels Borden sat behind the grumbling motor of the Diesel and wished that he knew how to talk to girls like Sonya. Suddenly he caught a glimpse of a red glare in his rear view mirror. He set the hand throttle and, keeping one hand on the wheel of the keeling truck, stepped out on the running board and looked back.

Sure enough! A fire at the Last Chance! Nels got back in the truck and split gears again for more speed. Two hundred feet ahead he turned on a wide ledge which served as a lookout spot for tourists, and slipped the gears into third speed. He couldn't go too fast, or the heavy truck would get away from him and roar down the mountain to destruction.

The gears whined as the truck picked up speed, and car-shattering explosions blasted from the exhaust pipe. Every five hundred feet or so Nels tapped the brake pedal, and his hiss from the cylinder. The muscles stood on his powerful forearms as he negotiated the bends in the road.

Almost before the truck had stopped in front of the Last Chance, Nels had leaped from the cab with a fire extinguisher in his hand. He stepped with his mouth hanging open as Sonya, strolling casually from the rear of the diner, looked at the extinguisher.

"Sorry, we don't fill those here. Or did you forget something?"

"Why... why, I guess I had fires on my mind tonight. I didn't realize you were just burning those greasy papers out back." Then Nels began to get angry. Wrath spread slowly through his Nordic stolidity, but it spread thoroughly.

"What the heck do you mean, anyway? Scaring a man half out of his wits, getting his schedule all messed up, and... and... aw, nuts!" He threw the extinguisher to the ground in fury.

"Well, I must say! Who ever asked you to come back and bawl me out? Can't I even burn paper in the barrel?" Sonya glared at him.

Nels wilted. "Well, my goah, Sonya! How do you think I feel, worrying about you all alone on this mountain at all hours of the night?" Nels stopped, embarrassed at his outburst.

"Yes? Well, how do you think I feel about you—phishing that man-killer all over the mountains? You'll end up like my dad—killed because some small-town grocer must have his canned beans on time!" Nels spoke before he thought, which in this case was a good thing. "That won't happen to me, I'm starting in the office next week as traffic manager. And if you were smart you'd quit running this place, and..." Nels stopped, the merciful darkness concealing the red flush on his face.

"Yes?"

"Well," said Nels defensively, "you

could do worse than a traffic manager!"

"Yes, I suppose I could, if this... this outburst is a proposal. Oh, Nels!"

Marty Summers, leaning over the wheel of his straining truck, whistled as his headlights picked out the figures of Nels Borden and Sonya Carlson standing closely linked in the driveway of the Last Chance.

Novel Plan

Britain Will Bid For Trade On Five Continents

Road convoys of 50 to 60 special coaches—travelling shop windows—will start out from Britain this autumn in a five-continent campaign to restore British markets lost during the war.

The project (of Trade Expeditions Ltd.) is designed to help smaller manufacturers who cannot afford to maintain their own selling organizations abroad.

Each caravan will be manned by 150 ex-servicemen whose main job will be to demonstrate samples. Exhibitions and trade fairs will be held in principal centres. The first convoys are to be sent to South Africa and South America.

This Week's Pattern

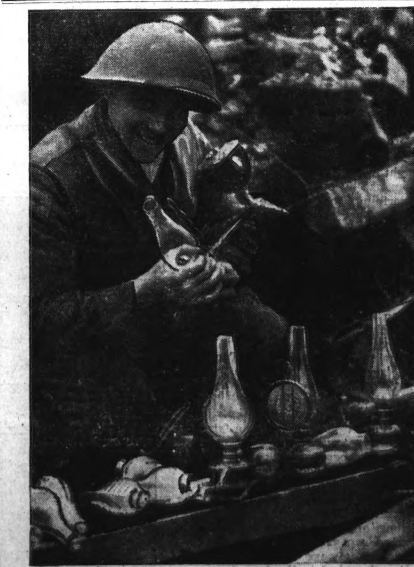

By ANNE ADAMS

Disarmingly innocent but full of feminine guile, Pattern 4552 has the new flare sleeves, flirty skirt ruffle, easy on-and-off button front.

Pattern 4552 comes in sizes 12, 14, 16, 18, 20; 30, 32, 34, 36, 38, 40, 42. Size 16 requires 3 1/2 yards 35-inch material, 3/4 yard contrast. Send twenty cents (20) in coins (stamps cannot be accepted) for this pattern. Write plainly Size Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg, Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

MAY BE PERMANENT

Air raid precautions (ARP) likely will become a permanent peacetime institution in Britain. The question is one which the Cabinet is considering with other postwar plans such as conscription. No decision has been reached, but most members of the government are believed to favor its continuation.

LAMPS OF VICTORY—When the First Canadian Army captured the German town of Udem, this cache of lamps was found in good condition and was immediately put into use by the Canucks. L-Bdr. Carpon, of Greelman, Sask., is here putting them into working order.

A Valued Souvenir

Mayor Of French Town Uses Dirk For Paper Knife

Emile Aubert, mayor of the picture postcard town of Barcelonnette, is using a Scot's dirk for a paper knife. Barcelonnette, a tiny town of steep-roofed houses cuddled together in an Alpine valley, was a centre of Maquis resistance. Aubert was the local Maquis chief and he was given the dirk as a souvenir by an officer of a Highland regiment who parachuted down near Barcelonnette on June 7, 1943.

Aubert first heard of the Scotsman when a Maquis scout reported that he had landed in the hills about 14 miles from Barcelonnette and was asking for an escort to Maquis headquarters. One of the local gendarmes who was a Maquis and who used his uniform as a safe conduct pass, was sent after the parachutist. A few hours later the gendarme returned to say it was impossible to bring the officer into town. "He is wearing a dress like a woman," reported the gendarme. "I could never get him by the German patric." So the mayor sent out civilian clothes to the officer.

For two months the Scot, who is known as "Major Edgar," fought with the Maquis. He taught the veteran mountaineers and saboteurs the wrinkles in guerrilla warfare and he led them in the bitter fighting along the Ubaye river valley which ended in the liberation of the important centre of Larche. He always fought in the Highland uniform and his gay tartan became a battle flag for the Frenchman. When he left he gave the mayor his dirk.

Live To Good Age

Only One Of Canada's Prime Ministers Died Under Seventy

The Manchester Guardian points out that of the 29 British Prime Ministers who have held office since 1783, only seven failed to reach 70.

Canadian Prime Ministers have had a remarkable record. Of these still living who had held that office, Mr. King is 70. Viscount Bennett is 74 and Mr. Meighen is 70. Of the eight who have passed away, only one, Sir John Thompson, who died suddenly in England at 50, failed to reach the three score and ten. Sir Charles Tupper lived to be 94; Sir Mackenzie Bowell, nearly 94; Sir Robert Borden, 82; Sir Wilfrid Laurier, 77; Sir John A. Macdonald, 76; Sir J. J. Abbott, 72, and Hon. Alexander Mackenzie, 70.—Toronto Star.

OVERSEAS CLUB—

The Ukrainian-Canadian Service Club in London owes a lot to Sgt. Helen Kozicky, C.W.A.C., whose home is in Calgary, Alta. Back in 1943 in Manchester a group of service people of Ukrainian origin got together and formed a club of their own. It was such a success that Sgt. Kozicky, who is stationed at C.M.H.Q. in London was asked to organize a club here. Now there are over 1700 members on the club register although at present the attendance is kept up largely by men on leave from hospitals. Sgt. Kozicky visits Canadian hospitals in England every other week and invites the wounded to make the Canadian-Ukrainian Club their home whenever they are in London. Members of the C.W.A.C. assist in entertainment programs. There is no shortage of girls at the dances even though there are only two CWACs of Ukrainian extraction, and a common sight on a Saturday night is alternate European folk dances and a session of jive.

SUBTLE—

Room inspections were the bane of her life to a young CWAC in Military District No. 12. The barrack officers always managed to find something wrong with her room. Finally in desperation the bright young thing made a large sign, placed it in a conspicuous spot and displayed the following words on it: "The eye that is trained to find defects, misses much of the beauty that life reflects." She made no comment on how it worked!

ENLISTS—

Several girls, mainly from rural Saskatchewan, enlisted in the C.W.A.C. in Regina recently. Included among them were: Lillian Caron, Wakaw; Olive Tedrick, Vanguard; Eva Wagner, Markham; Mary Lantz, Regina; Geneva Coleshaw, North Battleford; Gunnell Gray, Hooiser; Jona Egilsson, Calder; Phyllis Allan, Tisdale.

PROMOTED—

Pte. Anne Elizabeth Wheatley, daughter of Mr. and Mrs. Charles Wheatley, Semans, Sask., was recently promoted to the rank of corporal at Fort Osborne Barracks, Winnipeg. Cpl. Wheatley was employed in Regina prior to her enlistment in the C.W.A.C. there in February of 1943. She was transferred to Winnipeg in January, 1944 as a typist in the reception centre.

APPOINTED—

Trained and experienced in the field of social work, 2nd-Lieut. Helen Ruth DeMarsh, Valparaiso, Sask., has been appointed a social service officer in the Canadian Women's Army Corps. Lt. DeMarsh attended Brandon College, Brandon, Man., and was active in the debating club, historical society and the college newspaper there. Following a two year course in social work at the University of Toronto, she was employed by the Children's Aid Society and was working there when she enlisted in December 1944. Her parents, Mr. and Mrs. Peter DeMarsh, reside at Valparaiso.

The Australian Koala bear never drinks, but obtains moisture from the young eucalyptus leaves on which he lives.

A Family Festival

Would Do Away With Mother's Day And Father's Day And The Rest

Mr. Roosevelt does not like "days", and would like to see Mother's Day, and Father's Day, and all the other various days lumped together as one great day, and left at that. We are ready to go farther: let the great Family Day which Mrs. Roosevelt recommends be celebrated on December 25; we shall thereby get rid of all these factitious celebrations and restore some of the lustre to Christmas, which is growing more and more to be a spending orgy, and not a family festival. —Peterborough Examiner.

Improve Your Health by Correcting Sluggish KIDNEYS

This Way is Swift, Economical

Few conditions can wreck your health faster than sluggish kidneys. They cause backache, inflamed bladder, your back aches miserably. You have restless nights. You suffer ice cramps and rheumatic pains. When these things happen your kidneys need help in filtering out acids and poisonous wastes that are undermining your health. Give them this help—quickly—with GOLD MEDAL Hairton Oil Capsules. Accurately measured amounts of the original and genuine Hairton Oil (Dutch Drops). You will be gratefully surprised at the way they relieve clogged kidneys and irritated bladder. Go to your druggist now and get a 40c box. Be sure you ask for GOLD MEDAL Hairton Oil Capsules.

Powerful Tank

New Type Is Being Made In The United States

Chrysler Corporation officials have confirmed reports that the concern is manufacturing a new tank—officially known as T-26—and described by War Undersecretary Patterson as "the answer to the German Tiger tank." Mr. Patterson, in a radio broadcast, described the tank as "the most powerful we have ever built," and said its wide tracks give it power and flotation in mud, while its 90-mm. gun gives it more firepower than any previous American tank.

RENTAL RATES FOR CUSTOM USE OF FARM MACHINES

(Experimental Farm News)

Shortage of farm labour and restricted replacement of overworked farm machines now present a challenge to farmers in every part of the country.

Most farm equipment is used less than 60 per cent of the possible use consistent with good seasonal practice, says G. N. Denike, dominion experimental station, Swift Current, Sask. Shortage of convenient land, crop or labour are the reasons given for this low percentage use per season. New replacements for worn out or out of date machinery are strictly rationed and there is far from enough to meet the need. Skilled farm labour is at a low ebb while pressure is brought to bear on farmers to diversify their production, involving even less time for preparing land, seeding, cultivating and harvesting all kinds of field crops.

Joint effort, exchanged work, pooling of equipment, or custom work with farm machines have all been tried. The custom use of farm machines has proved most satisfactory as a means of overcoming shortage of skilled help and new equipment. This custom use has been facilitated by the establishment of a standard custom work charge set-up by the dominion experimental station at Swift Current and approved by the Western Agricultural Engineering Committee. These custom charges take into account the different classes of equipment, their different rates of depreciation, interest charges, repair costs and seasonal use. Consideration is also given to the difference in cost of machines in the various localities as well as the factor of various labor, fuel, oil and grease costs in different sections of the country.

Basic custom charges are worked out on a basis of each \$100 of value when new. The rate includes interest, depreciation, repairs and a fair profit on each class of equipment. All rates are on the hour of work basis and no attempt is made to relate this to a "per acre" basis since each combination of equipment will vary in this respect while the our rate will remain constant.

A bulletin has been prepared on "Basic Cost Rates for Custom Work Charges" which sets out several examples on how to apply these rates. Bulletins may be secured from any dominion experimental station or the Dominion Department of Agriculture, Ottawa.

More About Extension

Education, including so-called extension, is a function of provincial governments. Agricultural extension and research is mostly in Dominion Government hands.

It is necessary to assume, at present, that the administrative features of agricultural services will not change materially. It might be advantageous to combine the extension services of universities and provincial departments of agriculture. There are many arguments for placing experimental farms under a provincial administration with headquarters at the provincial university. On the other hand, there is much to be said for an expansion of extension and educational services through channels of the Dominion Department of Agriculture. The possibility of any such radical measures, even if they are desirable, is remote.

Two ways, at least, of improvement are open to us under the existing setup. One is the expansion and improvement of present services, and the other is the co-ordination of services both within and between provinces.

The absence of a direct administrative connection between research and experimental institutions, chiefly Dominion Government and universities, and the extension service, chiefly provincial, is a serious weakness. As a result, many Dominion Government experimentalists have, often in spite of themselves, been successful extension workers. We suggest that provincial extension services should engage specialists in plant diseases, soils, insects, etc., to work with and through the agricultural representatives.

Our second proposal is to the effect that annual Prairie Province extension conferences should be held, so that workers might benefit from an interchange of ideas and that our left hand may know what our right hand is doing.

FARMERS LOOK TO THE FUTURE—AND SO DO THEIR WIVES—Says Frances I. McKay, Director, Women's Work, Manitoba Dept. of Agriculture.

(Note—This is the second of a series of comments by wellknown prairie authorities, written expressly for the Weekly Press of Western Canada.)

Or perhaps the wives just dream—dream about the things they would like to have to make the home more convenient and comfortable for the family. One farmer's wife tells me she has hopes of her dreams coming true. When they invest money in Victory Bonds her husband puts some in his wife's name and these are to be used for improvements on the home after the war.

What are some of the improvements women dream about? I can tell you because some of the women have just been telling me. New homes—yes for some remodeling or renovating old homes. In other instances, but many of them express a desire for improvements which could be made to their present homes.

Rural women would like to be able to have electricity and at a cost they could afford to install it. So many women, during their lives, have carried tons of water in and out, that they feel an adequate supply of water and a drainage system are two things which would greatly simplify work in the home.

Kitchens are the workshops of the women in our homes. Many do a mighty fine job of preparing the family food, considering the tools with which they have to work. Women dream of the opportunity of remodeling their old kitchens—having working surfaces of a height that is comfortable, new cupboards for equipment, food (and cleaning supplies; a new refrigerator to keep the food fresh for a longer period of time.

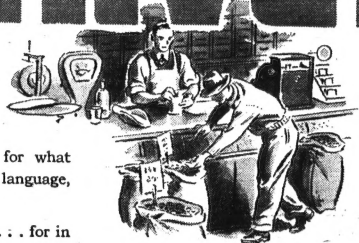

The basement of the home, or the lack of a properly constructed basement, is another concern of women. What would they like? A basement constructed so that it can be a very useful part of the house where cupboards and bin can be made to provide storage for canning vegetables, or seasonal equipment. One woman writes, "I have lived in small, medium and large houses and never had a decent basement until we built our own house. We could not afford a large or elaborate house so just tried to make use of every corner. I love my basement and from my experience I say to anyone who plans to build a new farm home, be sure that the new house has a good basement.

Farm women sometimes express the need for an extra room, or a "utility room", where the cream separator and the washing machine could be kept, also where there would be facilities for the men to wash up and cupboard space for coats and rubbers. This, these women say, would save a lot of tracking dirt into the house. Some suggest that this could be in the basement but only if the entrance to the basement were handy to the outdoors.

Some women, in telling what they would like to have, also told what they like about the house in which they live now. One feature some farm women have mentioned is the grade entrance which gives you a few steps up to the kitchen on the first floor and a few more down to the basement. The vegetables can be brought in without tracking dirt through the house, and the ashes can be taken out without having a trail from the basement stairs to the back door. A utility room in the basement has decided advantages with a grade entrance. One farm woman tells about having the basement completely finished with an office and sitting room combined, an adjacent wash-up room and a place to hang coats. These are a few of the things women would like to have in their homes, not for themselves alone but to be shared and enjoyed by all members of the family.

From the letters which come to my desk, it is clear that many farm women are not wishing and hoping for the things which will lessen their work and make life on the farm more comfortable. Many are planning to make their dreams come true when the war is over and because these plans will require money, these women are putting their trust in Victory Bonds earmarked "For the Home. It's a great feeling—to be able to make plans and to know that when the time is right, the dreams can turn into realities.

The Business Of Farming Requires RESERVES

"READY MONEY" is the common term for what businessmen call "Reserve Funds". In any language, "Ready Money" is a handy thing to have.

None realize this need more than a farmer . . . for in the business of farming there are so many times that extra money is needed . . . for bills that must be met . . . to take advantage of opportunities . . . "to turn a dollar" with profit.

There are many times when a farmer needs "extra money". Without a reserve fund he must either sell something "for what he can get for it" or borrow, if he can get a loan.

Victory Bonds provide a safe and convenient form in which to keep savings until needed. Victory Bonds earn double bank interest. When you have Victory Bonds you can get a loan from any bank at any time without any formality, and the interest the bonds earn pays a large part of the interest on the loan.

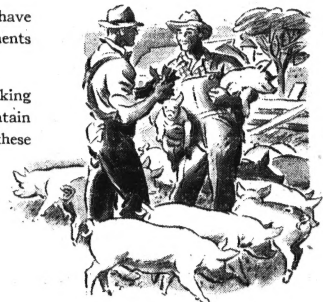

Victory Bonds can be bought for cash which you have saved or bought on convenient deferred payments with money as you get it.

Buy Victory Bonds to provide a reserve of working capital for your farm. Buy them, too, to help maintain your country's war effort. They pay interest these two ways.

Farmers always need "extra money" at seed time . . .

"Extra money" is needed to pay harvest hands . . .

You can often make a profit if you have cash to buy young animals . . .

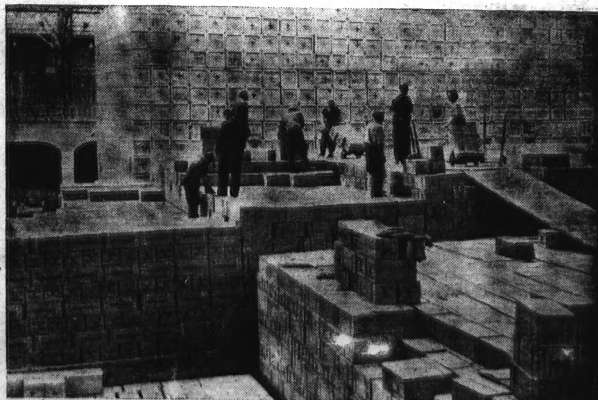

Get ready to buy VICTORY BONDS

8th VICTORY LOAN Opens April 23rd.
NATIONAL WAR FINANCE COMMITTEE

Words and the War

There are certain words that might well, I suggest, be deleted from use by our commentators in describing the advance of our troops. They are "dashing," "sweeping," "plunging," "racing," "rushing." The truth is that very seldom, and never for long, does any advance warrant any of these words. "Old soldiers" laugh when they read them. Advances by an army are never greater for long than the speed at which infantry can march and that is at the most 20 miles a day. Tanks and trucks can, it is true, go faster for a few hours, but then they have to stop for supplies until the infantry catch up. Over-optimistic words and descriptions give a false impression to people. Such words make the people think that the war will be ended tomorrow and then many are inclined, because of this feeling, to slacken off their war efforts. War actually is a grim tedious and slow business. Well-trained troops such as the Germans can always put up a fight when they feel inclined to do so. The war will never be won until the enemy is disarmed and behind barbed wire, and no one knows how long that will take. In the meantime, therefore, we must continue to the end of the road, working and producing to the very best of our ability.

PARCELS FOR PRISONERS

In a large warehouse in Geneva, Switzerland, hundreds of cartons of food parcels are stored, destined for Allied prisoners of war. Through this warehouse have passed over 13,000,000 food parcels from the Canadian Red Cross packing plants in Canada since the start of the war. Each is a life giving bundle for our servicemen. Our men in prison camps say that without them they could not exist.

What does YOUR FARM NEED?

If you want to build a modern barn

or buy new equipment

or electrify your farm

or modernize your house

...then have a talk with your bank manager about the new powers under the Farm Improvement Loans Act.

How often have you said "If I could only raise the money!" Well, if you could, what would you do to improve your farm and increase your production?

Would you build a modern barn?
or buy new machinery?
or modernize your house?
or electrify your farm?

You can raise short term money from your bank and long term money from other institutions by way of mortgage. But there are some things you would like to do which require loans that are neither long nor short...

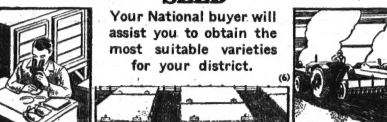

That is where the banks, operating under the new Farm Improvement Loans Act, can help you. The gap has been filled. "Intermediate" loans at a specially low rate can now be obtained for periods of two or three years—or even longer, in cases up to ten years.

So, if you have a project in mind to improve your farm, drop in and talk it over with your local bank manager. Ask him what he is now empowered to do to help make your farm living more attractive and your work more profitable.

He will tell you—and show you—that your bank is just as eager to meet the sound credit needs of the farmer as of the merchant or manufacturer.

HIS EAR KNOWS

Consulting the lobe of his ear is just one of the innumerable ways and means that J. Frank Willis explores in the process of bringing forth another good idea for broadcast features. Willis is supervisor of features for the CBC, and is seen above running through a script with Grace Matthews, during a rehearsal for "Comrades in Arms." Miss Matthews apparently thinks the idea is wonderful. She will be heard in the army, navy and airforce feature on Wednesday, April 11, at 7:30 p.m. over the CBC trans-Canada network. Mr. Willis is in charge of production.

SEEDTIME
AND
HARVEST
By
DR. K. NEATBY
Director
Livestock Service
Ottawa, Manitoba

Agricultural Extension

What a field this covers! Almost everything from seed treatment and school lunches to international trade and world citizenship. Now that so many organizations are becoming involved in extension work, surely it is about time that problems of administration and operation be examined critically. The responsibility for examination rests not only with government officials, but with the farmers themselves.

Extension services have, broadly speaking, two functions. One is to "extend" knowledge through publications, radio, short courses, field days, junior clubs, etc. The other is to provide, and advertise information and services whereby individual farmers can obtain the best available advice on specific problems.

In the Prairie Provinces, we benefit from a number of extension services, among which are the Dominion Department of Agriculture, Provincial Departments of Agriculture and universities. In addition, a good many non-government concerns endeavour to serve the farmer in an educational way. These include fertilizer, grain and machine companies; feed merchants; seed merchants; and so on.

Our system, if such it can be called, has much to commend it, but it has weaknesses. We wonder how many farmers know where to take their own individual problems. They certainly have problems and technical agriculturalists can often help; but there is no such thing as an expert on all problems.

We shall offer a few suggestions in the next "Seedtime and Harvest" and hope that, in the meantime, our readers do a little hard thinking.

Men, 30, 40, 50!

Want Normal Pop, Vm, Vigor?
...then have a talk with your bank manager about the new powers under the Farm Improvement Loans Act.

DESTROY WEEDS IN EARLY SPRING

Insufficient attention is given to destroying weeds in early spring. Winter annuals, of which stinkweed is one of the best examples, should be destroyed by cultivation before the crop is seeded, says H. R. Wood, Manitoba, weeding commission. If this practice is not followed the weed plants soon flower and set seed. The ripened seed is shed long before the grain crop reaches maturity. Weeds of this group, with their strong well developed root systems, can lower crop yields very materially through crowding, shading and drawing upon soil moisture reserves. If the surface is cultivated shortly after the land permits working, winter annuals can be easily destroyed.

The problem of annual weeds, of which wild mustard on the heavier soils is of foremost importance, presents a difficult problem. Where wheat is to be planted on summer-fallowed land, early seeding is the recommended practice. Usually a few days after the wheat shoots appear above the ground, mustard and other annual weeds such as wild buckwheat, stinkweed and lamb's quarters, emerge. Harrowing the crop at this stage of growth to destroy weeds has never become a generally accepted practice. Under favorable conditions it is possible to kill a large percentage of the weed growth without damage to the grain crop, especially in wheat. The surface of the soil should be dry, the day sunny, and the harrow used not too "severe" in its action. Lever harrows, or light harrows, are preferable to heavy sharp-toothed harrows. The old fashioned "finger" weeder may have a place in destroying weeds at this period.

On second and third crop land, either fall or spring wheat, the weed growth is likely to be more dense than on fallowed land. Where such land is intended for oats or barley particular care should be taken before seeding to shallow work the surface of the soil to encourage germination of weed seeds and to destroy as large a percentage of weeds as possible. If deep cultivation or plowing is resorted to a new crop of weeds is made ready to germinate with the crop.

Considerable interest is being taken in a new selective spray, known under the trade name of Sinox, designed to destroy a group of broad leaved annual weeds in growing crops. This chemical is coming into wide use in grain growing areas in the United States and has more recently been demonstrated in Manitoba. Sinox is most effective when applied to common mustard growing in cereals, flax and peas. It in no way damages these crops and lives up to its term "selective."

VIKING FLAX

(Experimental Farm News)

At a meeting of the National Barley and Flax Committee held in Winnipeg last month it was decided that Viking flax should be licensed for sale in Canada in view of its good performance in certain areas notably on the open plains in Saskatchewan, says W. G. McGregor, cereal division, central experimental farm, Ottawa.

Viking was selected by the North Dakota experiment station in 1926 from a cross of Bolley's Golden x Burbank Golden. It is a very short strawed variety, consequently its success in Western Canada has been questioned. However with the wider use of the combine this effect is largely overcome.

Viking differs from other varieties of flax now grown in having a fairly large, bright yellow seed of high oil content of very good quality. The blossom is flat and of a pale pink color which fades out to almost a clear white, with yellow anthers. In maturity, this variety sometimes ripens later than even Royal, so that it will be a competitor in areas where Royal is not grown rather than districts where an early maturing variety such as Redwing is preferred.

In disease resistance Viking is practically immune to the races of flax rust now prevalent in Canada. It also has considerable resistance to the flax wilt though not as much as Bison. However, it is very susceptible to pasmus and because of this characteristic the area in Viking has declined remarkably in Minnesota and North Dakota the last couple of years. Pasmus has been increasing in importance in Manitoba since 1942 and this past year was found as far north as Ochre River.

This disease becomes noticeable before harvest. Lesions circular

Items From Kinsella District

The friends of Pte W. F. Green are very sorry to hear that he has been wounded again. Jack Stevens had the misfortune of breaking a leg while out riding. Visitors to the city last week were Mrs. Barker and Jean, and Mr. Robt. Witton.

Miss Cora Murray is spending a week at home with her people. A party from Kinsella attended the Ladies Evening put on by the Elks at Viking last Friday evening and had a very enjoyable time.

Mrs. Wangness, Norma and Billy, spent a few days with Mr. and Mrs. Smogard last week.

Miss Peggy Allen spent the Easter week with her aunt, Mrs. R. Candy.

Jeay and Alberta Squair have returned to Holden school after spending the Easter holidays at home.

Barbara and Betty Olsenberg spent a few days with Mrs. Taylor of Viking last week.

The Misses Harriet and Kathleen Borthwick were home for Easter from Athabasca.

Mrs. Joe Beschell received news last week that her father, Mr. Glover, of Dakota, U.S.A., had passed away.

MANY CITIES PLAN V-E OBSERVANCE

The Canadian nation will greet V-E—Victory in Europe—day with trumpets and thanksgiving, with fanfare and fust but most of all with the unpredictable emotions unleashed in nearly twelve million souls by the termination of her second major war against Germany in 25 years.

It seems certain that the mood of any celebration touched off by a German defeat proclaimed by the Allies—as predicted by Gen. Eisenhower—would be underlined with the knowledge that not only does Japan remain unconquered but Germans will remain to kill and maim Allied soldiers.

Regardless of the tasks it would leave unfinished, the declared defeat of Germany was the target this week of hundreds of committees in hundreds of Canadian cities, towns and villages planning the events to commemorate it.

Edmonton—The first of two days of celebration will be a day of re-dedication and thanksgiving, the second a day of demonstrations and parades.

NORWAY APPEALS FOR SWEDEN AID

London, April 9.—The Norwegian government, declaring that a German force of approximately 200 thousand would make a "last desperate stand" in Norway, appealed Saturday to Sweden to drop its neutrality and rescue "what can be saved" of Norway.

"The general feeling in Norway," a statement issued by the Norwegian government said, "seems to be that the war against the Germans has reached a stage where neutrality has become a mere empty word, that both the Swedish people and the government are in fact aware of their moral responsibilities and are prepared to assist in saving what can be saved."

RADIOGRAMS

One Thursday night in Columbus Circle, New York, 150 members and guests of the famous University Circle Club, paid an ovation to a singer. The ovation was probably the greatest in the long history of a club which counted among its regulars such celebrities as Reinald Werrenrath, John Barnes Wells and Lambert Murphy.

A young baritone, asked to sing at the smoker, had rung the bell as never before, and they would not let him stop. This happened nearly thirty years ago. The baritone was John Charles Thomas, destined to become America's greatest male vocalist, who is heard over CJCA 9:00 a.m. Sundays and 3:00 p.m. Tuesdays.

In outline and varying from greenish yellow to dark brown development on the leaves and later on the lower portions of the stem. It spreads with marked rapidity. In tests at Brandon and Morden, this past season pasmus was severe on Vikings and developed early. The result was a considerable reduction in yield with earlier maturity, reduced size of seed and weight per bushel. To date, pasmus has not been found in Saskatchewan and until it is found there Viking may have a certain degree of success. Farmers in Manitoba, however, might be better advised to continue with Royal or Redwing.

Viking Items

A farewell gathering was held at the A. J. Ross home last Saturday evening for Mr. and Mrs. T. K. Larsen, when Mrs. Ross, Mrs. Loney and Mrs. Hall were joint hostesses. The gathering enjoyed games, contests and a sumptuous lunch. A presentation of an electric table lamp was made to the honored guests. Mr. and Mrs. Larsen have resided in our district for the past seven years and made many friends with whom they regret to see them leave, but wish them well in their new home. They expect to make their home in Calgary.

Mrs. Douglas Haydon has received word that Pilot Officer Haydon has been promoted to that rank. Pilot Officer Haydon is now serving with an RAF squadron in the middle east.

Bdr. Anthony Lefurud, of Camp Shilo, Man., and Mrs. Lefurud spent Easter in Edmonton.

Pte. Errol Hagen was home from Dundurn, Sask., training camp over the weekend.

Jack Kelly of the RCAF arrived home Saturday for a few days leave.

We hear that Maynard Runyon of the RCAF has been posted to the air station at Winnipeg.

An organization known as the Prague Welfare Association has been organized among a group of farmers in the Prague district. One of their first community efforts is the elimination of the warble fly pest and they are going about it in a business-like way. No doubt an organization of this kind can be useful and of much benefit in many ways to its members and the district it serves. Other districts could do well to follow Prague's example.

At the annual meeting of the Viking Curling Club held in Hillier's hall last Wednesday evening the following officers were elected for the ensuing year:

Cecil Runyon, president;
E. N. Stiles, vice-president;
J. Belzer, 2nd vice-president;
F. Reishus, sec.-treas., re-elected.

In the draw for the set of curling rocks raffled by the club, Tony Komarnitsky, of Holden, held the lucky ticket, No. 1189. The ticket was sold by Earl Hardy, and was drawn by Ronnie Hardy. Draws for unfinished bonspiel games were also made. Several games were not played on account of lack of ice due to warm weather.

Ken Hillier, president the past year, gave a report of the season's activities. The financial report showed that starting the season with about \$30.00 in the treasury this amount had increased to \$430.00 with all expenses paid except one or two outstanding ones.

Discussion took place on the subject of building a new rink but it was felt that not enough funds were on hand at present to do much about it.

The curling club intends to carry on with the bingo parties during the summer, and starting next week the bingo parties will be held on Saturday evenings in Hillier's hall until further notice.

The meeting was well attended. The curlers hope to promote several affairs this season to raise funds towards the building of a new rink in the near future.

The marriage of Gwen Elizabeth younger daughter of Mr. and Mrs. H. Child, of Viking, and A.B. Ian Thomas William Daniel, RCNVR, younger son of Mr. and Mrs. T. W. Daniel, of Minburn, took place in St. Matthew's Anglican church, Viking, on Tuesday, April 3. Rev. A. Goodwin performed the ceremony.

Mr. and Mrs. Comisarow, Sr., of Stony Plain, are guests at the home of their son and family, Mr. and Mrs. Wm. Comisarow.

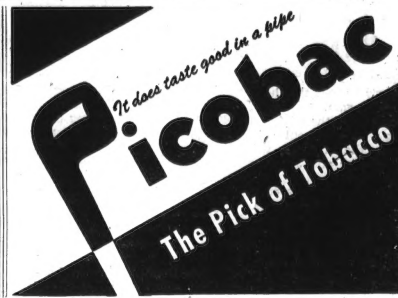

We note that the residence of Mr. and Mrs. B. H. Roddick on fifth Ave. is being prepared for a stucco job by Mr. Lausten.

Viking Elks were "At Home" to their wives and lady friends last Friday evening and a most enjoyable time is reported. Holden, Phillips and Kinsella were represented at the doings.

Mr. Gayfer, recently of the RC AF at Vulcan, has been engaged as high school teacher here in place of Mrs. Zeininger, who resigned to take postgraduate work in the U.S. Mr. Gayfer began his duties at the local school on Monday.

Gas camp employees who attended the N.W. Utilities banquet and dance held at the Macdonald hotel, Edmonton, on April 10, were Mr. and Mrs. E. Wade, Mr. and Mrs. Bennett, Mr. and Mrs. L. Loades, Mr. and Mrs. Deering, Mr. and Mrs. E. Jones, Mr. and Mrs. Dick Gares, Mr. and Mrs. Roy McDonald, Mr. and Mrs. Dave Scott, Lars Salverson and Jim Imker.

Transportation In Canada

THE DEVELOPMENT OF FACILITIES for transportation is a vital part of nation building. This is particularly true in the case of a country such as Canada, where distances are great and large sections of the country are far removed from the sea coast. Our history shows that the opening up of roads, railways, water routes and air lines has been closely associated with our economic and social progress. The first settlements in Canada were along the banks of lakes and rivers, where boats could be used for travel between these communities and the outside world. Later roads were built, leading to the opening up of much new territory. In time, railroads were constructed linking the Dominion from coast to coast, and the story of the building of these great transcontinental railway systems is among the most dramatic in Canadian history. Their construction is closely connected with the settling of the Western provinces, and in recent years we have seen the airplane play a similar part in bringing the far north into contact with the rest of Canada.

West Brought Closer To Sea

It is estimated that Canadian railways now have 42,400 miles of track, which places them among the greatest transportation systems of the present day. In the United States and Russia, however, the building of an extensive system of canals has made possible an inland waterway of nearly 2,000 miles. This together with the building of the Hudson's Bay Railroad and the development of the port of Churchill has brought the Prairie Provinces much closer to the sea, and has provided a means of cheap transportation between Western Canada and British and foreign markets. Added to all this is Canada's air freight business which is acknowledged to be the greatest organization of its kind in the world. The Dominion is equally to the fore in other branches of air travel, as was indicated by her inclusion as one of the "Big Seven" at the recent air conference in Chicago.

Serves Nation In Time Of War

Canada's transportation systems have made a notable contribution to the nation's war effort. Railways have carried record loads of war materials and service personnel and have at the same time maintained adequate service to the civilian population both in the distribution of goods, and the carrying of passengers. All this has been accomplished in spite of wartime shortages of labour and equipment. An indication of the increased volume of business with which the railways have dealt during the war is given in statistics which show that car loadings increased by 59 per cent. between 1939 and 1943, while 90 per cent. more passengers were carried during the same period. The demand for other forms of travel also increased, there being 37 per cent. more travellers on bus lines, and 90 per cent. more air passengers in the years following the outbreak of war. It is clear that transportation is an integral part of our national life and it will no doubt continue as such when Canada goes forward to greater expansion in the years to come.

HOW YOU CAN GET QUICK RELIEF FROM SORE, PAINFUL PILES

Most people seem to think the only way to get relief from their sore, painful piles is by local treatment. Local treatment may give temporary relief from the itching, but you can easily see why such treatment will not correct the cause of your piles. No lasting freedom from pile misery can be had unless the cause of the trouble is corrected. Piles are due to internal causes and the best way to get lasting relief is to treat them internally with a medicine like Hem-Roid. Hem-Roid is a formula that has been used for over 40 years by thousands of pile sufferers. It is a small, highly concentrated tablet, easy and pleasant to use. This cleverly compounded tablet formula directs its medicinal action to the relief of the congestion that is the real cause of your piles. Hem-Roid promotes free, easy and comfortable bowel movements, quickly relieves itching, soothes irritation and stimulates help your pile condition quickly, easily and pleasantly. With good blood circulation in the lower bowel. With good blood circulation in the lower bowel.

Posed by a Professional Model

Our offer is backed by a money-back guarantee for a good many years. Hem-Roid must be used for a good many years. Hem-Roid must be used for a good many years. Hem-Roid must be used for a good many years.

Need Veterinaries

Saskatchewan Without Adequate Medical Service For Livestock. One million cattle and five million pigs in Saskatchewan were without adequate medical services. That this is so and that the government should do something about it, legally and financially, Provincial Agricultural Minister L. F. McIntosh told the legislature. He said there were only 35 veterinarians in the province, and that their average age was 60 years.

NEW SERVICE

A new casualty employment service said to be the first of its kind in Canada will be opened at the veterans affairs office in Montreal. Twelve specially trained men, all amputation casualties of this war, and the First Great War, will interview men handicapped by the loss of limbs and find them suitable employment.

More than 1,800 families have been recorded in China since 180 B.C. The famine of 1877-78 claimed 9,500,000 lives.

Price Control And Rationing Information

Q.—Will you kindly give me the date when canning sugar may be purchased.

A.—The canning sugar is purchased with preserves coupons, each coupon being good for half a pound of canning sugar. Two preserves coupons may be used on March 15, eight more coupons become valid on the 17th of May and the other ten will be good on and after July 19. Each ration book holder is entitled to 10 pounds of canning sugar.

Q.—I would like to obtain information regarding the ceiling price of a car I have for sale. Where may such information be obtained?

A.—You may obtain the above information from your nearest War-time Prices and Trade Board office.

Q.—I have the opportunity to sell my old tractor. I will be making an application with the rationing officer of farm machinery for a new tractor and would like to know if I can dispose of my old one.

A.—Farmers who dispose of used farm machinery this spring without approval of their rationing officer are warned that their application for new equipment will not be considered.

Q.—How many meals must I serve to members of the armed forces before application may be made for ration coupons?

A.—Nine meals. Please note that a 48-hour leave entitles you to a maximum of six meals only.

Q.—When do the regular sugar coupons become valid?

A.—Two sugar coupons become good on the third Thursday of every month.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your rationing, mentioning the name of this paper to the nearest War-time Prices and Trade Board office in your province.

SMILE AWHILE

When a man breaks a date, he usually has to tell a girl breaks a date she usually has two.

"Your leg is swollen," admitted the doctor, "but I wouldn't worry about it."

"Well, if your leg was swollen, I wouldn't worry about it either."

Bill—"What about the \$4 you owe me?"

Tom—"It's your birthday on Friday. I'll bring it to you with my congratulations."

Bill—"You just bring the money and I'll congratulate myself."

"Has anybody ever been lost in crossing here?" asked a timid young man, who had hired a boatman to ferry her across a river.

"No'm," was the reply. "Mah brother was drowned heah last week, but we found him nex' day."

Colored Maid to friend on street car—"Well, I reckon the war's gettin' nearly over. I was a hour an' a half late dis mornin' an' the lady she done fire me."

The family and their guest had just seated themselves at the table.

"Susie," said the mother, "why didn't you put a knife and fork at Mr. McKinnin's place?"

"He don't need any, mother," replied Susie. "You said he eats like a horse."

Husband—I've told you before that it is economically unsound to spend your money before you get it. Wife—I don't know. If you don't get it—at least you've got something for your money.

Little Brother: "You'll be an old maid if you take the last piece of cake."

Little Sister (aged six): "Oh, that's all right. I've been one all my life."

Magistrates' Clerk: "Why haven't you paid this fine?"

Man: "When I had the money to pay my wife wanted a new hat."

Clerk: "And you gave her the money for the new hat?"

Man: "Yes, I thought you would be more lenient than she would be if I refused."

An enthusiastic golfer came home to his dinner after a game. During the meal his wife said: "Willie tells me he caddied for you this morning?"

"There now!" exclaimed Willie's father. "I thought I'd seen that lad before."

Salt is formed of sodium, a very active metal, and chlorine, a very poisonous gas.

Black Market

Selfish Motives Behind Those Who Desire To Get More Than Their Share

It takes two to make a black market—a buyer and a seller. Both are equally guilty and both are actuated by the most selfish of motives—the desire to make money or to get more than a fair share of some scarce commodity. It blinds them to the fact that they are engaged in destroying the economic structure of their own country and endangering their own security.

You can't have a little inflation. Once you start to feed it, it grows until it is beyond control. Selling and buying above the legal price ceilings, overbidding and hoarding of scarce commodities obtaining rationed goods without coupons—all these feed inflation. — Consumers' News.

Bigger And Better

Sleeper Accommodation Planned For T.C.A. Planes After The War

The planes that will be used in Canada after the war for the main transcontinental service will be over four times the size of the present T.C.A. planes. John T. Dymont, superintendent of engineering, T.C.A. told members of the Lions Club in Winnipeg.

Weighing almost 80,000 pounds against the present 20,000, they will be driven by four engines, instead of two, have a maximum cruising speed of over 300 m.p.h., carry 44 passengers, and have sleeper accommodation, he said.

It might be safely said, he continued, that air lines will not be available within a year, but how soon after that depends upon the progress of the war.

Discovers Home Skin Remedy

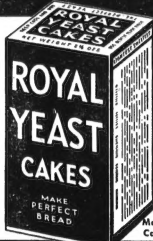

This clean, stainless, antiseptic known all over Canada as Moore's Emerald Oil, is one of the best skin remedies ever discovered. It is a natural product of the earth and is so antiseptic and penetrating that it can reach the very depths of the skin and destroy the cause of all skin troubles. It is so simple and so easy to use that it can be used by anyone. It is so effective that it can be used for all skin troubles, including eczema, psoriasis, and all other skin conditions. It is so clean and so safe that it can be used on the face and on the body. It is so simple and so easy to use that it can be used by anyone. It is so effective that it can be used for all skin troubles, including eczema, psoriasis, and all other skin conditions. It is so clean and so safe that it can be used on the face and on the body. OUR COMPLETE SHORT STORY—PLENTY MAD

By FAYE MCGOVERN

McClure Newspaper Syndicate

Jim Bowman, American newspaper correspondent, deliberately ignoring the young Chinese squatting beside him, glowered through the dimming light of the old coal mine compound at the chalk-white cliff across the ravine. Its very sheerness and flatness blocked his last hope of escape from Ku Chang's band of cut-throats. A sturdy armed guard scowled from the narrow stairway that led down to the next level where the noisy band was preparing supper. If the mine had a lower entrance it was undoubtedly just as well guarded. He was definitely stuck!

"Melican man angry?" queried the Chinese.

"Bowman turned on him savagely. 'Of course, you slant-eyed!—If I hadn't stopped to fish you out of the river neither of us would be in this fix!'"

"No," the lad said placidly. "Melican man be safe out of mountains. Lin Sing be making nice dinner for clabs."

"What the deuce were you doing in the river if you couldn't swim?"

"Merchant man throw um in. Lin Sing see something he want velly much. No can buy, so steal. Make merchant man plenty mad!"

"Bowman squinted at him. 'Stole something, eh? Why didn't he turn you over to the police?'"

"Police too far away. No come into mountains. Fear Ku Chang."

"With good reason," Bowman said bitterly. "How that ignoramus became the leader of a guerrilla gang is beyond me. Did you hear what he called me when he found that little brass Buddha ash tray among my things?"

"Lin Sing nodded amiably. 'Japanese spy!'"

"Right! Just because it had 'made in Japan' stamped on it. Why, you can buy those things for a dime apiece in the States. My little girl gave it to me as a going-away gift."

A haunting surge of homesickness dissolved into helpless moaning anger. "What does Ku Chang do with his prisoners when he thinks they are spies?" he demanded.

Do you suffer from MONTHLY NERVOUS TENSION

with its weak, tired feelings?

If functional periodic disturbances make you feel nervous, tired, restless—at such times—try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound is one of the most effective medicines for this purpose. Follow label directions. Buy today.

Lydia E. Pinkham's VEGETABLE COMPOUND

"Put's bullet through head mostly," Lin Sing replied calmly.

"Good Lord!" Bowman jumped up, peered over the parapet. "Stuck up here like rats in a trap," he fumed, coming back to find Lin Sing poking through his beloved camera pack. "Hey, get out of there. No use looking for anything else to steal. It's bullets for you, too, if we don't find some way out."

Lin Sing looked aggrieved. "Me no steal him Melican man. Only want to know what is box with glass eye."

"That's my projection machine. I've been showing some of our American cowboy pictures in Kifu as part of our Good Neighbor Policy."

Lin Sing's face brightened. "I see some once. Velly good. Guns go bang-bang! Devils with feathers in pigtails go woo-woo-woo!" Grinning, he lifted the machine from its box. "Maybe so Wu Chang no have hear of Good Neighbor wh'cham'ical."

Bowman looked mazed. "Say—do you suppose—" His eyes swung to the cliff. Its smooth chalky whiteness would make a perfect screen.

"Son," he said more kindly. "I'll have to hand it to you. Here you're in as much danger as I am, but instead of throwing up the sponge you make up games. Haven't heard a whimper out of you."

Lin Sing ducked his head. "You never see Lin Sing before, yet you save unworthy one's life. Most grateful to bonable one."

Disconcerted by the lad's sudden change of demeanor, Bowman gathered up his paraphernalia, carried it to the parapet and set it up. "Bring the films," he called.

There was no answer. He turned, puzzled. Lin Sing was nowhere in sight. A hurried search of the mine cave failed to produce him. "Lying devil!" Bowman muttered furiously. "Probably knows these caves as he does the back of his hand and has skipped out on me!"

But a year in China had taught him the futility of railing at fate. He went doggedly back to the parapet and proceeded with his film.

"Perhaps when Wu Chang saw that his pictures were of American cowboys and Indians he'd change his mind about the spy theory and release him."

He clicked a switch. Dark figures leaped to life against the white cliff, moving across the panorama like phantoms.

The noisy clatter below suddenly ceased. Bowman grinned. At least he'd impressed them.

Suddenly the cliff became blank. Bowman looked down at his project, moving across the panorama like phantoms.

The noisy clatter below suddenly ceased. Bowman grinned. At least he'd impressed them.

Put 3-purpose Va-tro-nol up each nostril. It (1) shrinks swollen membranes, (2) soothes irritation, (3) relieves transient nasal congestion... and brings greater breathing comfort. Follow the complete VICKS directions in folder. **VA-TRO-NOL**

Bomber Command

The Background To The Twenty-Two Thousand Pound Bomb

London commentators supply the following figures: During February 1945, Bomber Command dropped 45,750 tons of bombs. Striking an average for the past four years, the tonnage dropped by R.A.F. Bomber Command is:

(A) March: has been approximately 65% greater than in February.

(B) April: has been approximately 21% greater than in March.

(C) May: has been approximately 9% greater than in April.

(D) June: has been approximately 9% greater than in May.

It is also pointed out that the huge scale of our air attacks, as well as the constant improvement in weapons, is not the result of a special effort being applied at a critical moment to tip the balance and bring the war to a speedy end. There is nothing even surprising about it. It is no more than the Allied authorities have always foreseen, the logical and inevitable outcome of limitless Allied resources; industry, manpower, and raw materials. Not only can it be indefinitely sustained, weather permitting, but it will continue to increase so long as the war lasts.

SELECTED RECIPES

AIRY FISH SOUFFLE

That seafoods are versatile is a happy fact that menu planners rediscover each year when they accept the annual challenge of the days of abstinence of the Lenten calendar. There need be no monotony in menus when recipe books are well stocked with seafoods. The following is one of their different delicious ones.

On new savory and economical seafood entree that will be equally popular throughout the year is Fish Souffle. These airy individual fish souffles are made with cooked, flaked fish, rolled cream crumbs, milk, eggs and a happy assortment of seasonings. These are baked in custard cups in a pan of hot water and like all souffle-type dishes are to be served immediately after removing from the oven.

A smooth cheese sauce and fresh green vegetables are delicious menu accompaniments for the fish puffs.

FISH PUFFS

3 cups oven-popped rice cereal
1 teaspoon salt
1 tablespoon Worcestershire Sauce
2 tablespoons chopped onion
2 tablespoons chopped green pepper

1 cup chopped celery
2 cups milk
2 eggs, separated
1 cup cooked flaked fish

Roll oven-popped rice cereal into fine crumbs; combine with salt, Worcestershire Sauce, onion, pepper, celery and milk in a saucepan and cook slowly, stirring occasionally, for about ten minutes. Beat egg yolks and add to mixture slowly; cook over low heat five minutes longer. Add flaked fish. Beat egg whites until they are stiff but not dry and fold into first mixture. Pour into buttered custard cups or baking dish; set in pan of water and bake in moderately hot oven (425 deg. F.) for about thirty minutes. Serve at once.

Yield: Eight servings (individual cups).

Real Life-Saver

Red Cross Primus Stove Used In French Military Hospital

A primus stove does not seem like a life-saving invention, but in a military hospital in France it turned out to be just that, according to information received from a Canadian Red Cross welfare officer in France, Miss Ruby Cobbett. In one afternoon and evening, 29 operations were performed on wounded soldiers that were brought into this advanced medical base. Instruments were sterilized over the little stove that had been furnished by the Red Cross when no other means of coping with the situation were available. "The nursing sister said it would have been impossible to perform those operations without that little stove," Miss Cobbett writes.

Miss Cobbett is one of a group of over 500 Canadian girls who are working overseas as volunteers with the Canadian Red Cross Corps. Working in co-operation with the Canadian Army Medical Corps is one of their important jobs, but from Newfoundland to Italy they are serving the fighting men in such jobs as driving ambulances, visiting the sick and wounded in hospital and bringing them comforts and necessities, teaching handicrafts and doing jobs too numerous to mention.

Where Canada Leads

Canada leads the world in wheat exports, leads the world in electrical distribution per capita, leads the world in rural telephones per capita. Canada has the world's largest hydro-electric power development, has the world's largest industrial exhibition (Toronto), has the world's largest combination elevator (Port Arthur), has the world's largest transportation system, has the world's largest pulpwood resources, has the world's largest inland port (Montreal).

Canada has one of the world's largest gold mines, has 90% of the world's nickel, has 85% of the world's asbestos supply, has 90% of the world's supply of cobalt. Canada has the world's greatest railway mileage per capita, has the world's greatest wild life sanctuaries, has the world's greatest buffalo herd.

Canada operated the first electric railway, built and used the first railway sleeping car, built the world's first submarine telegraph, built the first compound steam engine, built the first electric stove, built the first steam boat to cross the Atlantic.

Canada has won the world's International wheat championship 27 times, originated the idea of Standard Time, is the home of the discoverer of insulin, is the home of the inventor of the telephone, is the home of the discoverer of helium gas, and is the home of the discoverer of paper making from pulp.

FAST AL RIGHT

The other day an excited woman rushed in and threw a faded apron on the counter in a department store. "Look at this!" cried the customer. "Just look at it!"

"I'm looking at it," said the girl behind the counter. "What about it?"

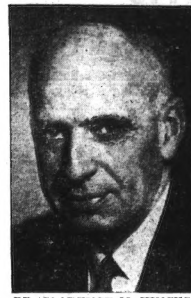

"What about it?" shouted the woman. "Why, when you sold me this apron you said its color was fast. And what happened? The color came out at the very first washing!"

The girl looked surprised. "Well," she inquired, "wasn't that fast?"

Diamonds are not inflammable in air, but will burn at 850 degrees C. if put in pure oxygen.

Toronto, general director of the National Committee for Mental Hygiene (Canada), who is conducting a survey of Saskatchewan mental services at request of the Department of Public Health. He has been invited to make recommendations regarding both treatment and preventive services. A report is expected in April.

GARDEN NOTES

For Special Locations

Once upon a time most flowers had to be planted in full sunlight and rich soil if any sort of a showing was to be expected. Sometimes, too, in fact will not grow if exposed to full sun from morning till night. And these flowers often have brilliant coloring too. The tuberous rooted begonia is an example. Then there are flowers like portulaca, wonderfully colorful, that prefer a blazing sun, and poor, dryish soil. In between these two extremes are hundreds of others listed in very good Canadian seed catalogue that are sufficient to meet any conditions from Aklavik to Pelee Island.

Soil Improving

The best enricher for poor soil is well-rotted manure, according to the experts, but often this material is difficult to obtain. Sometimes, too, it is not very suitable, particularly where the garden is close to the house, where it must also serve as a playground for children.

In these cases a good garden chemical or commercial fertilizer is advised and this should be applied carefully according to directions. Often this material will burn tender flowers or vegetables. Experienced gardeners usually advise dissolving fertilizer in water and applying as a solution or sprinkling it up and down the rows, being careful to place it close to but not actually touching the roots.

Commercial fertilizer is generally regarded as a quick plant food which gives astonishing results. It will bring vegetables along quickly, thus assuring tenderness. It is also helpful in transplanting flowers, vegetables and nursery stock so that they get over the shock of moving.

To keep up fertility of old established gardens or build up light or poor soil, old gardeners usually dig in all weed growth and other humus, such as rotted sods from a special pile at the back of the garden. Strawy manure well dug in and kept buried until it rots will gradually turn sand into a rich loam which will absorb and hold water and make ideal garden soil.

Heavy land also benefits from dug-in weed and other green growth. The experienced gardener in handling any sort of soil, but especially sandy ground or heavy clay, seldom throws away any weeds or grass clippings.

Saving the Back

Wherever possible use long handled spades, forks, rakes and hoes to prevent stooping, also little special cultivators with long handles. Minimum requirements are a rake, hoe and either a digging fork or spade.

For example, when youngsters come home from school in the afternoon and ask for something to eat, they are really hungry. By mid-afternoon, a good deal of the energy they obtained from lunch has been utilized. Especially in cold weather when so many additional heat units are needed to provide resistance for outdoor play, an after school lunch is a necessity.

Soft drinks of root juices mixed with water were sold as early as the Roman games, in the first century B.C.

The giraffe can live longer than a camel on a desert without water, run faster than a horse and is voiceless.

New York City contains more Russians than does Kiev, Russia.

Curator Of Pagan

Guardian Of Treasures At The Ancient Capital Of Burma

At Pagan, the ancient capital of Burma, U La Pe Win, a Burmese Government archaeologist, has for three years functioned as the secret and self-appointed guardian of the ancient treasures against the ravages of war.

When Mandalay was threatened in the spring of 1942, U La Pe Win sailed down the Irrawaddy to Pagan with all the official records he could carry, including those pertaining to Pagan. Luckily no Japanese troops were quartered in that area.

This Burmese scholar then made himself responsible for the protection of the city's priceless historical treasures. He buried the documents he had brought with him from Mandalay, and as many of the other relics as he could. He stood the larger statues of Buddha that he was not able to bury, outdoors, so that Allied pilots would then see them from the air and would be sure not to fire at them.

U La Pe Win with his wife and children lived in the cells of one of the old monasteries and, to earn a living, bought a boat and traded on the Irrawaddy, sailing down to lower Burma with jaggery (a coarse sugar), tamarind and ground-nut oil, and bringing back rice and salt. This trade exposed him to strafing aircraft by day and river pirates by night.

"Because of the slowness of the mail delivery of our patterns may take a few days longer than usual."

CANADA'S FUR TRADE

According to a study of Canada's fur trade made by the Canadian National Railways, the bulk of production of Canadian furs, prior to the war, went to London whereas now, Canada's fur trade is mainly with the United States and 1942 statistics show that the entire Canadian undressed fur export valued at \$17,977,000—\$16,869,000 worth went to the U.S. and only \$1,577,000 worth to Great Britain.

Any of these snacks is light enough so as not to hinder appetites for the regular meal to follow. Many carefully supervised day nurseries serve crackers and milk to the children regularly at mid-afternoon for these reasons.

New York City contains more Russians than does Kiev, Russia.

LOCALS

Miss Vera Simmermon, following her graduation at normal school, accepted a position as teacher at White Cloud school, north-east of Wainwright, for the Wainwright school division.

Mr. Charles Walker has moved to his new farm on Strawberry Plains.

Born to Mr. and Mrs. Arthur Five at Princeton, B.C., a daughter, on March 27.

Miss Aletha Knudson was home from Edmonton for Easter.

Mrs. Kenneth Matheson of Edmonton, visited in the Irma district last week.

Mr. Harry J. Burholder of Edmonton, the first grain buyer for the Security Elevator Co. at Irma, died at his home suddenly last week.

Mrs. B. Hadlow and children, of Edmonton, visited relatives in Irma last week.

Mr. H. Cooper, of Edmonton, was an Edmonton visitor last week-end.

Miss Winnie Reeves has been in Mannville the past two weeks receiving medical treatment.

Mrs. I. Vinjerud has been an Irma visitor for the past week.

Mr. and Mrs. J. Fletcher have had as visitors this week Mrs. Fletcher's mother, Mrs. Berg, an aunt and a brother, Gilmour, of Edmonton.

Through error the following names were not included in the obituary of Mrs. Mary Crabb, published in last week's issue: To United Church Building Fund, Mr. and Mrs. Archie Cook and family; Mr. and Mrs. M. McMillan; Neil and Ruby; Bob and Annetta. To the Alberta Protestant Home for Children: Mr. and Mrs. J. Fletcher.

SHOWER HELD FOR MRS. R. H. SIMMERMAN

A very pleasant event in honor of a recent bride was held at the home of Mrs. E. Longmire, Thursday evening, April 5.

Mrs. R. H. Simmerman (nee Miss Stella Arnold) was the guest of honor when the ladies of the town gathered to shower her with lovely and useful gifts and a host of good wishes that in the not too distant future she can make use of her gifts in her future home.

A singing and a contest led by Mrs. Ray Locke and Mrs. Clarence Carter added to the jolly time.

The gifts to the bride were presented on a table that was decorated in real Easter style. Mrs. M. Tripp made the presentation.

A delightful luncheon was served at the close. Those assisting the hostesses were Miss Margery McFarland, Mrs. Frickelton, Mrs. Tripp and Mrs. Milne.

Mrs. Simmerman's thanks to all those present and absent was most sincere.

IN MEMORIAM

In loving memory of Lyle Haakon Larson, who passed away on April 27, 1944.

Deep in the heart lies a picture Of a loved one laid to rest; In memory's frame we shall keep it,

Because he was one of the best. Ever remembered by his father, mother and sisters.
